

# Cambridge Technical

## Summer Task

You need to complete the presentation about input devices. This requires you to read the information about the different input devices and then fill in the sections of the slides about where the input device is used and what the advantages and disadvantages of each input device is.

You need to complete the presentation about output devices. This requires you to read the information about the different output devices and then fill in the sections of the slides about where the output device is used and what the advantages and disadvantages of each output device is.

You then need to complete the exam questions on the document titled input and output devices.
